

I am outraged that the NAB is petitioning to limit the scope of XM radio's programming. I commute 140 miles each day and I rely completely on XM Radio to provide the widest variety of programming and reception quality which is unavailable to me via over the air reception. Without the weather and traffic reports my commute can turn into a nightmare!

I went for 6 years doing this commute listening to static and weak reception. I jumped at the chance to PAY for XM Radio's services. I will never go back to using conventional radio. Please, do not allow the National Association of Broadcasters to limit my programming choices.

I respectfully ask that you consider my situation and understand how important XM Radio is to my daily life and reject NAB's petition 04-160. XM Radio is an important part of my life, please do not allow others to put limits on what I deserve to hear.

Thank you,
Chris Campbell
